BG

Balearic Germander

Teucrium Asiaticum or Balearic Germander is a perennial species with upright hold stalks with pale rose flowers and extremely aromatic (almost pungent), narrow foliage.

The models are compatible with the following

- **3ds Max 2016** and higher
- **V-Ray 3.0** and higher
- **Corona Render 1.6** and higher

Broadleaf Woodsorell

Oxalis latifolia is a species of flowering plant in the woodsorrel family known by the common names garden pink-sorrel and broadleaf woodsorrel. It is native to Mexico and parts of Central and South America.

The models are compatible with the following

- **3ds Max 2016** and higher
- **V-Ray 3.0** and higher
- **Corona Render 1.6** and higher

CR

Cat's Head Rockrose

Helianthemum caput-felis, this small bush is given this name because of the shape of the buds in the flowers: two sepals are smaller and they are open a bit outwards, the rest are tightly closed and very hairy, all in all it looks like the small head of an animal (a cat).

The models are compatible with the following

- **3ds Max 2016** and higher
- **V-Ray 3.0** and higher
- **Corona Render 1.6** and higher

Fan-Leaved Buttercup

Ranunculus Paludosus is a species of perennial herb in the family Ranunculaceae. They have a self-supporting growth form and simple, broad leaves.

The models are compatible with the following

- **3ds Max 2016** and higher
- **V-Ray 3.0** and higher
- **Corona Render 1.6** and higher

WR Iron Cross

Oxalis deppei is a perennial herb producing a rosette of leaves about 30cm tall from an underground bulb and taproot. The leaves and flowers are gathered from the wild and eaten locally. A very ornamental plant, valued for its free flowering habit, it is often grown as an ornamental in gardens

The models are compatible with the following

- **3ds Max 2016** and higher
- **V-Ray 3.0** and higher
- **Corona Render 1.6** and higher

PT Piperella Thyme

Thymus piperella, is a small, evergreen, perennial shrub that is native to the Mediterranean region. It has small, ovate leaves and small, white flowers. It grows in dry, rocky, and sandy soils in open, sunny areas.

The models are compatible with the following

- **3ds Max 2016** and higher
- **V-Ray 3.0** and higher
- **Corona Render 1.6** and higher

SL Sea Lavender

Limonium Perplexum, is a genus of about 600 flowering plant species. Also known as sea-lavender, statice, caspia or marsh-rosemary. Despite their common names, species are not related to the lavenders or to rosemary. They are instead in Plumbaginaceae, the plumbago or leadwort family.

The models are compatible with the following

- **3ds Max 2016** and higher
- **V-Ray 3.0** and higher
- **Corona Render 1.6** and higher

SI Seashore Iris

Chamaeiris reichenbachiana, It is a subspecies of *Iris spuria*, a beardless, rhizomatous perennial plant, from coastal regions Europe and north Africa with deep blue-violet flowers.

The models are compatible with the following

- **3ds Max 2016** and higher
- **V-Ray 3.0** and higher
- **Corona Render 1.6** and higher

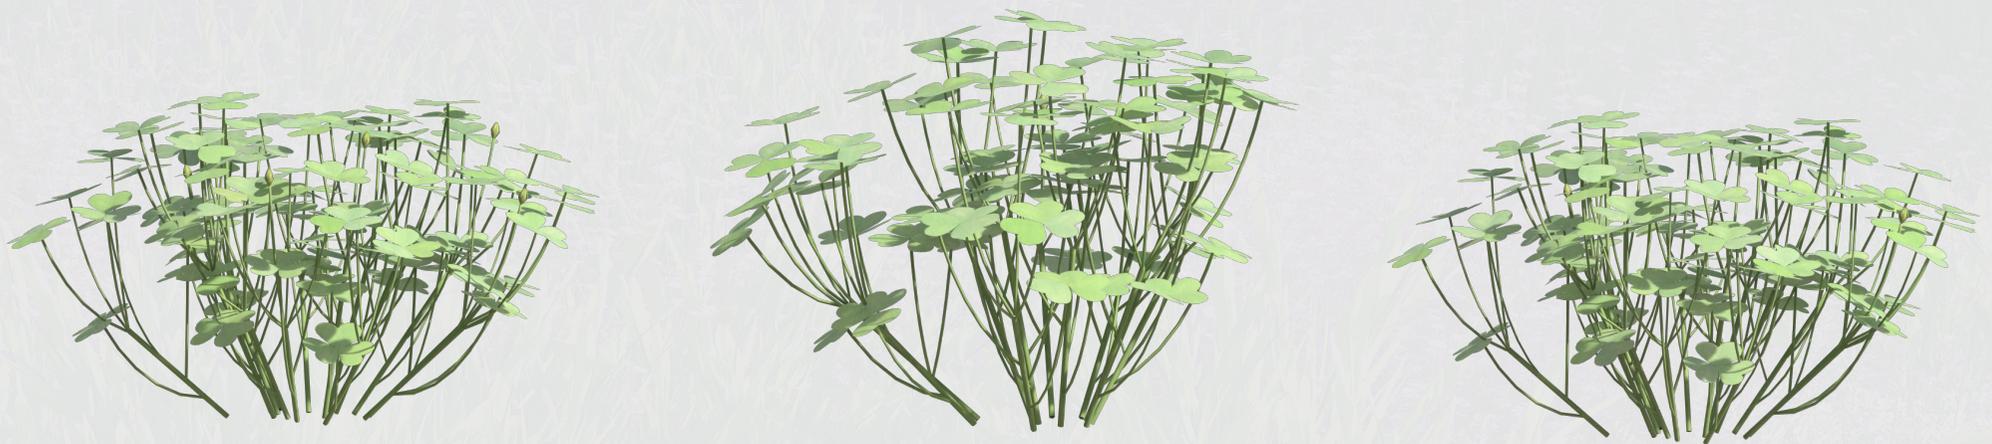

SW Shady Woodsorrel

Oxalis exilis, the least yellow sorrel or shady woodsorrel, is a small herbaceous plant found in Australia and New Zealand. It is mainly found in hillsides and weedy areas. It is the smallest species of *Oxalis* in New Zealand. The colors of the leaves range from green to purple. The capsule and style length vary from 4–6.5 mm.

The models are compatible with the following

- **3ds Max 2016** and higher
- **V-Ray 3.0** and higher
- **Corona Render 1.6** and higher

WC
